HEADQUARTERS NINETY FIFTH BOMBARDMENT GROUP (H) Office of the Operations Officer

APO 634. 15 December 1943.

SUBJECT: Report of Operations Officer -- Mission of 13 December 1943 -- Kiel.

TO : Commanding Officer, 95th Bombardment Group (H), APO 634.

1. GENERAL NARRATIVE: The 95 MAR Group formation took off at 0810-0829 hours. By 0845 the Group rendezvoused at 4,000 feet over the field (not at 2,000 feet as originally planned, as there was a layer of thin clouds interfering) and continued to circle the field until the 95 MBR Group formation assembled below them. After the 95 MBR Group assembled, the 95 MAR Group followed them around until 0945, joining in Combat Wing formation at that time. All control times were met by the 95 MAR Group without difficulty.

The climb to bombing altitude was begun at 1046 at 530 38*N-00 40*E, 150 miles per hour at 300 feet per minute. During the climb the 95 "A" Group formation strung out slightly but upon reaching bombing altitude, the formation tightened into a good defensive formation. Bombing altitude of 28,000 feet was reached at 1200 at 54035*N - 05058*E. This position was ascertained by a Gee fix. Because of high cirrus clouds on route at the ordered altitude, the formation was taken higher to avoid flying through the clouds. A good Combat Wing defensive formation was held throughout the change in altitude. The formation crossed the English coast at 1039 and the enemy coast at 1232 at 53° 52*N - 08° 36*E.

Nothing unusual occurred after crossing the enemy coast. The bombs were dropped on the markers left by the PFF aircraft leading the Combat Wing from 27,900 feet at 1259 through a 10/10ths undercast. This undereast extended over all the enemy territory flown over by the 95 A Group formation and well out over the water of the North Sea. During the bombing run and over the target the 13 A Combat Wing, following the 13 B Combat Wing, closed the interval, holding a very tight defensive position during this time.

After bombing, the rally was effected as planned with nothing unusual to report. The 95 "A" Group remained in position in the Combat Wing thereafter. In the target area the Mustang escort was sighted but no Lightnings were seen by this Group. Withdrawal support of Spitfires was seen.

Upon recrossing the enemy coast at 1314 at 53° 40°N - 08° 30°E,

the 13 "A" Combat Wing fell slightly behind the 13 "B" Combat Wing, flying about a mile and a half to the rear and to the right. The descent began at 1304 at 53 37'N°- 09° 55'E.

The 95 A Group reached home base at 1520, waited for 95 B Group to land, and then landed from 1539 to 1600 hours. Two aircraft landed earlier than the formation as they were low on fuel. One aircraft, 42-37979, could not lower its left landing gear upon returning to the field, so was set to Honington to crash land. No personel were injured in this landing.

- 2. AIRCRAFT NOT ATTACKING: Twenty-one aircraft left the base in the formation shown in diagram "A". One aircraft, # 42-6080, turned back at 1237, about 20 miles inside enemy territory, due to mechanical difficulties. A running combat with enemy fighters followed, the pilot taking evasive action and finally flying into the clouds for protection. Returned to base at 1430, the crew is credited with a sortie. Twenty- aircraft bombed as shown in diagram "B".
 - 3. LOST AIRCRAFT: No aircraft from the 95 "A" Group were lost.

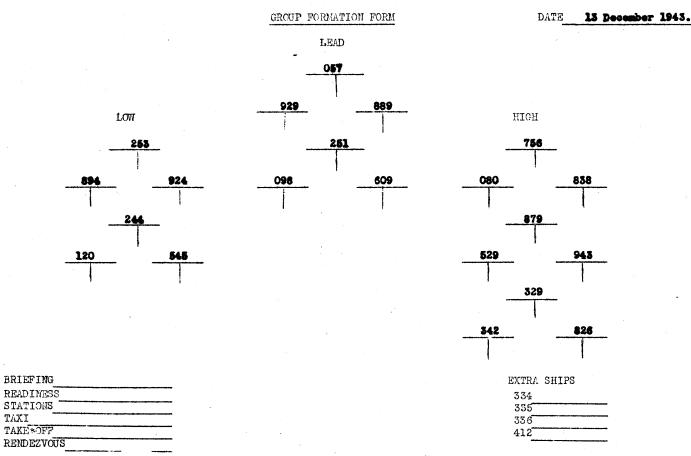

HARRY G. MUMFORD, Major, Air Corps, Operations Officer.

HEADQUARTERS NINETY FIFTH BOMBARDMENT GROUP (H) Office of the Operations Officer

APO 634, 15 December 1943.

SUBJECT: Report of Operations Officer -- Mission of 13 December 1943 -- Kiel.

- TO: Commanding Officer, 95th Bombardment Group (H), APO 634.
- 1. The 95th "B" Group formation with one PFF aircraft took off at 0855-0924. By 0905 the 95th "B" Group formation had assembled over its base at 2000 feet and started its climb to Combat Wing assembly altitude. The 95th "A" Group had departed the base earlier and tagged on in position with 95th "B" Group 2000 feet above. '95th "B" Group entered Buncher #8 from the east and 390th "A" Group entered from the south. Combat Wing assembly was effected two minutes early and course was set to Buncher #7 where the second Combat Wing of the 13th Combat Wing was to rendezvous. The 13th "B2 Combat Wing crossed Buncher #7 one minute early and the second Combat Wing was not in sight so course was set to Spaulding and thence to Louth. Controlled time was met at Spaulding. From Spaulding to Louth constant "S'ing" was necessary to stay behind of the Combat Wings, which were ahead on the Air Division assembly line.
- 2. At Louth no Combat Wing appeared to be taking the initiative to set course out over the North Sea. All Combat Wings were going into Louth and turning out to the right and left away from course. The "S'ing" had caused the 13th "B" Combat Wing to be six minutes late at Louth so when one Combat Wing set course from Louth ahead of the 13th "B" Combat Wing, the 13th "B" Combat Wing followed on course at a two mile interval as the second Combat Wing to depart Louth.
- 3. Just prior to departing Louth the second Combat Wing of the 13th Combat Wing was identified and presumed to have fallen in behind. However upon departing Louth this Combat Wing turned away and did not follow.
- 4. The 13th "B" Combat Wing followed on course over the North Sea as the second Combat Wing to depart Louth and started the climb at 1046, six minutes after departing Louth. No difficulty was encountered on the climb and close support was held with the lead Combat Wing. Combat Wing formation for 13th "B" Combat Wing was excellent in the climb. Bembing altitude was reached just prior to turning point in the North Sea. Good course was held in the climb and turn into enemy coast was made at briefed point and time. Solid undereast existed over entire route and D.R. was done from 05° 00°E.
- 5. At turning point the leading Combat Wing turned to a heading of 125° rather than the briefed heading of 116? The 13th "B" Combat Wing fellowed the leading Combat Wing on this heading which put the Force south of briefed course when crossing enemy coast. A cirro-stratus layer existed

at bombing altitude so an additional 2,000 feet climb was made.

- 6. The P.F.F. Havigator took over and apparently knew where he was. After a turn was made to the east the P.F.F. Havigator stated that he had picked up Hiel and a turn to the left could be made at any time into the target. The 13th "B" Combat Wing waited until the leading Combat Wing had turned at the I.P., took interval and turned into the target on a 10° heading. Excellent Combat Wing formation was held into the target and the P.F.F. Havigator reported the bembs dropping in the center of the target. Bombing run was made at 27,000 feet and bombs were away at 1300.
- 7. Flak over the target was intense to moderate and accurate. No loss of aircraft was sustained by 95th "B" Group due to flak over the target. Route out was flak free with exception of slight amount of light flak when crossing back out over enemy coast.
- 8. The leading Combat Wing was lost over the target in condensation trails and the 13th "B" Combat Wing was never able to pick them back up again after leaving the target.
- 9. On route out over enemy coast the P.F.F. Navigator stated that he had identified the coast line and found the Combat Wing approximately forty miles south of course. Checking back on D.R. route he found that Hamburg had been bombed instead of Kiel. A correction was made to the north to fly back home on the briefed course. Descent was started at 1341 and briefed course was held enroute home. Cromer was crossed at 6000 feet at 1451. The 390th "A" Group was dispatched from the 13th "B" Combat Wing at Cromer to return to their base. The 95th "B" Group returned to their base and landed 1510-1556. Ship #0244 left formation at Cromer and landed 1504 with injured man aboard.
 - 10. Twenty-three aircraft, including two spares left base in formation.

HARRY G. MUMPORD, Major, Air Corps, Operations Officer.

MRADQUARTERS NINETY PIFTH BOMBARDMENT GROUP (H) Office of the Operations Officer

APO **634** 15 December 1943

SUBJECT: Lead Navigator's Warrative, Mission of 13 December 1943.

TO : Commanding Officer, 95th Bombardment Group (H), APO 684.

Ninety Fifth A-Group Formation

- l. The Minety Fifth A-Group took off as scheduled at 0810 and due to a light cloud cover assembled over the field at 4,000° at 0850.
- 2. Combat Wing rendesvous was made at 0951 at Bu # 8 at 10,800'. We proceeded from this point to Bu # 7 then to Spaulding "S" ing to let the lead Wings in the lead. We left the Coast six minutes late at 11,000' and five miles left of course. At 1056, 53° 42'N 01° 03'E we began to climb reaching bombing altitude at 54° 35'N 05° 58'E at 1200.
- 5. At 1215, 54° 55'N 06° 56'E, we turned on a magnetic heading of 135°, Using D.R. I assumed we crossed the enemy coast at 55° 52'N 08° 36'E at 1282. In the meantime we had climbed to 26,000 to avoid a layer of clouds at 1287, 58° 41'N 09° 08'E, we turned on a N.H. of 180° for seven minutes to 55° 19'N 09° 28'E, then to a H.H. of 97° for five minutes, 53° 18'N 10° 00'E. From this point we turned into Hamburg on a heading of 20°. Bombs were away at 1257.
- 4. At 1804, 55° 37'% O9° 55'E, we started our descent slowly leaving the enemy coast at 55° 50'% O8° 58'E on a heading of 282°. On a heading of 270° at 1859, a "G" fix showed us to be at 55° 53'% O5° 18'E at 16,000' at 1451 we crossed the English Coast near grower at 6,700' arriving at our base at 1510.

RALPH B. HAYES 2nd Lt., Air Corps, Lead Bombardier.

HEADQUARTERS

TO : Commanding Officer, 95th Bombardment Group (H), APO 634.

Minety Fifth B-Group Formation

- 1. The Minety Fifth Bombardment Group "B" took off as scheduled at 0840-0855 and assembled over the base at 0905.
- 2. Wing rendezvous was made 2 minutes early at Buncher # 8. Approaching Spaulding, three miles left of course to make good the controlled time, we turned left approximately 30° to get into position behind the lead wing and to avoid their prop wash. We left the coast six minutes late at 53° 30'N 00° 05'B behind the lead wing. Four minutes ahead of the controlled time, six miles south of the briefed point at 25,000', we turned onto a heading of/35° for 25 minutes.
- 3. We crossed the enemy coast 10 miles south of Cuxhaven at 1231. It was necessary to climb to 27,000' to clear a layer of cirrus slouds at out briefed altitude. At 1237 we altered course to 150° for 3 minutes; at 1245, 94° for 5 minutes and at this point turned into Hamburg on a heading of 15° on the bomb run. Bombs away at 27,000' at 1259 on a heading of 15°.
- 4. We left the enemy coast at 1316 at 55° 50'N 08° 58'R on a heading of 282°. At 1341 we started our descent and altered course to 270°. At 1357 we turned to 241° heading at 53° 57'N 06° 25'E and made landfall at Cromer at 1451 at 6,000'. The low group peeled off and we returned to our base arriving at 1503.

ROBERT CLOWES 2nd Lt., Air Corps, Lead Mavigator.

SUBJECT: Lead Bombardier's Harrative, 98-A. Mission of 15 December 1943.

- TO : Commanding Officer, 95th Bombardment Group (H), APO 684.
- 1. Bombing Approach and Run The bombing was done on F.F.F. standard operating procedure. A small turn was made to the left at the I.P. The P.F.F. fired a yellow flare at the I.P. and group Ninety Five A opened their bomb bay doors. The Combat Ning in echelon formation made a four minute straight and level bomb run and dropped his markers indicating the bomb release line. As Ninety Five A Group was carrying M-47Al incendaries and F.F.F. was set up for M-45 500 Lb. H.E. bombs it was necessary for the lead bombardier to delay his release six seconds past the bomb release line which he did with the aid of a stop watch. Other sirplanes in formation dropped on him. Heavy flak was encountered on the run but no enemy airgraft were seen. There was a 10/10 undercast.
- 2. Disposition of bombs Twenty One sircraft were in the formation as they crossed over the target. Aircraft No. 7894 released 20 On target and jettisioned 22 ever water on return due to rack malfunction. Each of the other aircraft dropped 42, M-47Al incendiary bombs on the target. Total number of bombs dropped on primary was 860. These bombs had standard M-47Al fuse.
- 3. Type of Release Of the 860 bombs dropped at target 545 were released through the intervolometer (75 Pt. interval), 398 were toggled and 17 were salvoed armed. Aircraft 42-6080 aborted at the enemy coast and jettisioned bombs in sea.

4. Tabular Summary

HEADQUARTERS WINETY FIFTH BOMBARDMENT GROUP (H) OFFICE OF THE INTELLIGENCE OFFICER

13 December 1943

SUBJECT: S-2 Report on 95-A.

- TO : Commanding Officer, 95th Bombardment Group (H), APO 634.
- 1. Twenty One A/C from this Group designated as 95-A took off from this base from O810 to O825 to bomb the center of the city at Kiel, Germany.
- 2. One A/C number 6060 returned at 1410 because of a runaway prop after flying to withing fifty or sixty miles of the target. All other A/C attacked Hamburg and dropped bombs on the lead group.
- 3. The briefed course was not followed as the PFF went south of the course at approximately 54°40°N and 06°50°E going south of Hamburg and then turning into Hamburg the bombs were dropped on that city. A study of the pictures do not give any results of the bombing as there was a complete cloud cover over the city. However, the PFF pilot reports excellent bombing of Hamburg.
 - 4. No E/A attacked this formation.
- 5. Meagre pointed flak and inaccurate was reported at Wensendorf and Brunsbittelkoag. Intense A A fire mostley directed on the Group behind us came from the Hamburg area, also a box barrage was reported by 4 A/C at the target.
- 6. A/C #7879 crash landed at Honington because he couldn't lowers left landing gear. All other A/C landed at base between 1515 and 1600 hours.

STANLEY R. WHEATON, 1st Lt., Air Corps, Ass't. S-8 Officer.

PERIOD UNDER REVIEW.

These photographs were taken after the attack by aircraft of 8th U.S.B.C. on 13th December, 1943, with fighter escort.

PROVISIONAL STATEMENT ON DAMAGE.

Two main damaged areas are seen as a result of this raid. The important shipbuilding yard of Deutsche Werke Kiel A.G. (priority 1+) has received further severe damage. Among the many buildings affected are the following: Boat-building Shops, Plate Sheds, Carpenters Shops, Iron Stores, Turbine Engine Workshop, Engineering Workshop, Factory Workshops and Slipways. (3006)

There is a second concentration on the town centre in the area of the Kleiner - Kiel and the Exerzier Platz. The Rathaus and the Stadt Theatre are among the damaged buildings.

(7005)

This report is subject to correction and amplification from a more detailed assessment.

INTERPRETATION REPORT NO. SA 694

ATTACK ON THE KIEL, BREMEN, HAMBURG AREA ON 13.12.43

- (i) INFORMATION RECEIVED ON THE ATTACK
 - (a) This report is based on photographs taken during a daylight attack on KIEL, BREMEN and HAMBURG by aircraft of U.S. VIII Bomber Command on 13.12.43.
 - (b) 355 aircraft attacked KIEL between 1243 and 1317 hours.
 Bombs were dropped as follows:

1640 x 500 lb. G.P. 4670 x 100 lb. I.B. 973 x 500 lb. I.B. clusters

173 aircraft attacked BRIMEN between 1159 and 1247 hours. Bombs were dropped as follows:

915 x 500 lb. G.P. 4567 x 100 lb. I.B.

116 aircraft attacked HAMBURG at 1300 hours. Bombs were dropped as follows:

> 771 x 500 lb. G.P. 14,2 x 100 lb. I.B.

- (c) The bircraft were provided with full fighter escort.
- (d) The aircraft approached each of the targets from a Westerly direction.

(ii) STATEMENT ON THE ATTACK

- (a) The three targets are entirely obscured by a solid undo cast of clouds between 4000 and 6000 ft., and no ground detail is visible sufficiently close to the falling bombs to permit any statement as to the location of their points of impact. However, marker trails are clearly visible on photographs from aircraft on all three missions and in a number of instances bombs are seen falling close to and even across these traids. In one instance as many as thirteen sticks of bombs were photographed on a single marker.
- (b) There is certain photographic evidence in spit. of the heavy cloud that bombs, especially from aircraft over the BREMEN area, have caused fires and possibly explosions in a populated area. Disturbances near the ground causing unusual cloud formations are visible in widely separate localities. No conclusive statement as to the nature of these can be made.
- (c) The presence of heavy flak, especially true at KIEL, is evidence that the aircraft were over a heavily defended position.

(iii) ANNOTATED PRINTS

- (a) ANNOTATED PRINT NO. I (SAV 305/233-3)
 - A. Marker trails

 B. Thirteen sticks of bombs in close proximity to the marker trails.
- (b) ANNOTATED PRINT NO. II (SAV 91/132-3)
 - C. Cloud disturbance from smoke and possible explosion near Bremen.
