HEADQUARTERS NINETY FIFTH BOMBARDMENT GROUP (H) Office of the Operations Officer

APO 559. 15 August 1944.

SUBJECT: Report of Operations Officer, Mission of 13 August 1944.

TO: Commanding Officer, 95th Bomb Group (H), APO 559.

1. GENERAL NARRATIVE: The 95th Bomb Group took off at 0931 - 0945 hours to form the lead of the 13th A Combat Wing. Group assembly was made at 15,000 at 1053 hours. Wing and Division assembly were made as briefed. The Group departed the English Coast at Portsmouth at 1200 hours.

The French coast was crossed at 1229 hours at 18,000. Briefed course was flown to 4814N - 0008E where the wing was broken into groups. At 4820N - 0050E, the I.P., the lead Group was broken into 3 ship elements. Bombs were dropped by lead element at 1320 hours on the assigned target area.

In order to avoid a collision with another element the 2nd element of lead and low element were forced to bomb 10 miles East of assigned target. The high element bombed assigned area.

The rally point was made at 1329 hours and briefed course was made good to the enemy coast at 4953N - 0042E at 17,000.

The English coast was crossed five miles right of course at 9,000 at 1419 hours. The group arrived over the base at 1506 hours and landed at 1526 hours.

2. AIRCRAFT NOT ATTACKING: Twelve sireraft plus one PFF sireraft took off from base but only eleven sireraft plus one PFF departed the base.

The reason for one aircraft, # 1939, not departing base was # 2 engine failure.

The twelve aircraft including the PFF aircraft departed the base as shown in diagram "A" and bombed the target as shown in the attached diagram "B". Twelve aircraft including one PFF aircraft were credited with sorties.

3. AIRCRAFT LOST: None.

LARRY L. KERR, Capt., Air Corps, Actg. Opn. Officer. 95th Group Over Terget Diagram *B"

E-E-26

· . 13 August 1944

- SUBJECT: Lead Navigator's Narrative, Minety Fifth Bombardment Group (H), Mission of 13 August 1944, Tactical Target, France.
- TO : Commanding Officer, 95th Bombardment Group (H), A.A.F.
- 1. The 95th Bomb Group flew as lead of the 15th "A" Combat Wing. We were airborne at 0930 hours, circled the field and assembled the group at 15000. Control points, SP# 7, Luton, Reading and Portsmouth on the assembly were met on time.
- 2. The French coast was crossed at 1229 hours on course. Briefed course was flown at 4814N 0008E where the wing was broken into groups. At 4820N 0050E the I.P. the lead group was broken up into three ship elements. We deviated from briefed course on the target run to avoid two concentrations of flak. At bombs away the altitude was 18150, 004° true heading at 1320 hours at 4854N 0140E.
- 3. After bombs away we went around one more concentration of flak and made the rally point at 4917N 0147E. From then we proceeded on the briefed course to the enemy coast at 4953N 0042E at 17000'.
- 4. The English coast was crossed five miles right of course at 5047N 0037W at 9000° at 1419 hours. We remained at 9000° above the clouds to 5211N 0024E and then continued to let down towards the base. We arrived over the base at 1506 hours and landed at 1530 hours.

HEADQUARTERS ' NINETY FIFTH BOMBARDMENT GROUP (H) OFFICE OF THE INTELLIGENCE OFFICER

14 August 1944

SUBJECT: S-2 Report for Mission of 13 August 1944.

- TO: Commanding Officer, 95th Bomb Gp. (H), APO 559.
- 1. Twelve A/C plus one Pff A/C of the 95th Group took off between 0930 and 0945 hours to form the lead Group of the 13th Combat Wing and attacked tactical targets in France. A/C 1939 turned back at 52228-0115E with #2 engine out.
 - 2. No E/A were encountered.
 - 3. Meager, tracking flak was experienced at 4914N-0145E.
- 4. Lead element strike photo shows pattern falling in open field west of target R5449 in assigned target area.
- 5. Lead 2nd element strike photo shows pattern covering target R7661 10 miles east of assigned target area.

Low element strike photo shows pattern north of target R7348 10 miles East of assigned target.

High element strike photo shows pattern covering target R5549 in assigned target area.

5. Bombing done visually in elements of three. All A/C returned to home base and landed by 1540 hours.

JOSEPH W TRIBBLE, lst Lt., Air Corps, Ass't. S-2 Officer,

B. OPERATIONAL SUMMARY

1. Bomber Attacks

30 combat wings (798 B-17s, 466 B-24s - 1264 a/c) dispatched to attack one RR bridge, 3 coastal batteries and all important highways over a wide area on both sides of the Seine River from Le Havre to Paris. Support by six fighter groups. 1207 a/c dropped 2701.4 tons on assigned areas at 1257 - 1421 hours from 14,000-22,600 feet. Weather: CAVU to 1/10 with slight ground haze on some areas. Flak: moderate, inaccurate to accurate. Battle Damage: 424 minor, 60 major. E/A opposition: nil. Claims: nil. Losses: 13 a/c (7 B-17s, 5 B-24s to AA, one B-17 crash-landed).

Details of attacks as follows:

Assigned Targets	Dispat B-17s	ched B-24s	Attack B-17s	ed B-24s	Tons G.P.	Results
Battle Area Support La Manoir Bridge St. Malo (gun battery) Ile do Cezembre A & B (gun battery)	725 7 3	362 34 70	634. 69	347 34 69	1980.0 207.5 136.0 275.0	Fair to Good Fair Very Good Very Good

Totals	798	466	757	450	2701.4	

2. Fighter Escort

Six groups (136 P-51s) dispatched to escort bombers attacking tactical targets along the Seine River. 131 sorties. Up 1057-1356, down 1440-1804. No e/a opposition. Claims: nil. Losses: nil. (2 P-51s landed on beach head).

3. Fighter Sweeps

Nilo

4. Fighter Bombing

41 groups (388 P-47s, 96 P-38s, 445 P-51s - 929 a/c) dispatched to bomb as strafe rail and highway transportation facilities in a wide area northeast of the Seine River. Sorties 884. Up C447-1816 hours, down 0728-2117 hours. Attacks ranging from early morning until late afternoon. 844 a/c dropped 347.5 tons CP and five tons Frags on M/Ys, bridges, tunnels, moving traffic and other transportation facilities. All groups strafed and patrolled assigned areas after bombing. E/a cppsition: nil. Claims: 0-0-1, ground. Losses: 13 a/c (4 P-47s, 9 P-51s) to unknown causes.

Claims for bombing and strafing as follows:

Destroyed	Damaged
46 locos	75 locos
483 freight cars	1590 freight cars
270 trucks	126 trucks
25 autos	22 autos
5 passenger cars	30 passenger coaches
. 86 oil cars	83 cil cars
6 ha lf-tracks	5 half-tracks
1 flak tower	8 flak towers
2 flak cars	2 water towers
1 W/T Station	4 switch towers
10 bridges	8 bridges
6 barges	5 factories
	33 barges
	7 storage tanks
	1 tunnel

5. Photo Reconnaissance

14 a/c (5 Spitfires, 9 F-5s) disptached on photo reconnaissance. One a/c failed to complete mission. D/A photos obtained at Kaiserlautern - Landstuhl, Strasbourg, Metz, Chaumont, Moumenlon, Etampes/Mondesir, St Malo and other targets. Mapping on areas at Dijon, Paris, Orleans and other areas. E/a opposition: one plane intercepted north of Orleans by three FW 190s. Losses: nil.

6. Weather Reconnaissance

13 a/c dispatched on weather operations: 2 B-17s on routine reconnaissance; 2 Mosquitoes over Brest; 2 Mosquitoes scouts for heavy bombers; 5 Mosquitoes, 1 B-25 and 1 B-26 on special reconnaissance. No e/a opposition. Losses: nil.

7. Air/Sea Rescue

20 P-47s dispatched on Air/Sea Rescue operations. No incidents reported. All a/c returned safely.

8. Special Operations

6 B-17s dispatched, night of 12/13 August, to drop leaflets in France and Belgium. Operation completed. All a/c returned sarely.

4 a/c (2 5-17s, 1 P-38, 1 Mesquite) dispatched conspecial operation. No flak or c/a opposition, Lesses: one Mesquite to urknown causes,

4 B-17s despatched on special testing operation. Two returned early. No e/a opposition, Losses: mil.

C. INTELLIGENCE

1. Enemy Air Opposition

There was no enemy air opposition to heavy bomber attacks, fighter escort or fighter bombers on any of the day's wide-scale operations.

One a/c on Photo Reconnaissance was intercepted north of Orleans at 30,000 feet by three FW-190s without incident.

2. Flak

Rouen - meager and accurate tracking fire; some rockets. Neurobatel - meager and accurate tracking fire.

Lo Manoir - moderate and accurate.

Flers - meager to moderate and accurate.

Seine River Area (NW of Paris) - meager to moderate and accurate.

Dreux - meager and inaccurate.

3. Observations

Four ships, 4926N-0034E, in Scine River going out to sea. Camouflaged A/F, 4948N-0040E, in good shape.

24 oil tanks on Seine River from Quillebeuf, 4928N-0033E to 4928N-0038E, at 1327 hours, from 18,000 feet.

Two ships off Guernsey headed west at 1438 hours, from 15,000 feet. Heavy military traffic just outside of Vernon moving southwest into city, 4908N-0127E, at 1345 hours, from 18,500 feet.

Military traffic at Bonnieres-sur-Seine, 4903N-0135E, moving through town from west at 1350 hours, from 18,000 feet.

An A/F with 27 vehicles of unknown type on runway parallel to coastline St. Valery-en-Caux, 4954N-0032E, at 1354 hours.

Motorized convoy 45 miles in length stationary, 4818N-0122E, at 1257 hours, from 18,500 feet.

30 trucks parked in woods, 4840N-0115E, at 1350 hours, from 14,000 feet.
40 car trains standing in woods, 4938N-0132E, at 1336 hours.

Smoke flare or possible round rocket trail numbering between 10-60 seen up to altitude at Rouen. 1320 hours from 18,000 feet.

25 plus railroad cars stationary at railroad junction, 4938N-0108E, at 1327 hours from 18,000 feet.

20 vehicles on road southwest of Gournay moving toward coast, 4929N-0142F at 1450 hours.from 15.000 feet.

12 plus ambulances pulling trailer marked with light crosses going toward. Paris, using thtee main highways, 3 to 4 on road to Dreux to Paris, 4 to 5 on road Ranbouillet to Paris, 3 to 4 on road Chartres to Paris.

50 plus cars with red crosses moving out on end of woods, 4 VR-6040, at high speed.

20 plus Red Cross trucks at 4 VR-4435 have trailers.

A well camouflaged grass A/F running north and south, at 4 VM-3550 appeared serviceable.

Bridge being repaired at outskirts of Rouen, northeast side., Grass A/F in good shape, with 9 dummy a/c dispersed at 4 VR-4848. 30 open. stanchion wagons at each end of tunnel. highly camouflaged.

probably loaded, no locos visible at 4 VM-3534, 1030 hours.

Unusual heavy motor traffic on all roads towards and southeast of Paris. 30 plus ambulances moving west at Droux.

Slit trenches about 50 years apart and possible gun sites, unmanned, all along sides of all main railway from coast of Rouen, from 4,000 feet.

4. Damge to Enemy Installations

La Manoir Bridge - Fair Results

Portion of northern and southern spans have been completely knocked down from previous attacks. All traffic must move over a temporary structure that has been erected immediately east of original steel bridge. Six concentrations of GP bombs in and adjacent to target area. Smoke and debris cover target early in attack making it impossible to pinpoint strikes. At least four direct hits seen on rail lines along southern approach to bridge and additional hits seen on rail lines approximately 300 yards north of bridge. Indications are that temporary bridge is still intact.

St. Malo (gun battery) - Very Good Results

Excellent pattern of GP bombs squarely on the target which is probably completely destroyed by the attack.

Ile de Cezembre A & B (gun battery) - Very Good Results

Two targets in this area are close together. Each target was hit by three tight patterns of 2000 pound bombs and it is believed that both targets had been destroyed by the attack.

Battle Area Support - Fair to Good Results

Three forces attacked highways and other ground targets in assigned areas on both sides of the Seine River, as follows:

lst. Ten of the areas attacked with Good Results, fifteen - Fair, five-Poor. Thirty concentrations of approximately 400 GP bombs each burst in vicinity of rail and highway crossings in an area 7 - 30 miles south of Rouen, France. These concentrations all located south of the River Seine, in an area approximate? 800 square miles. Bombs burst on railroad lines, primary and secondary roads and intersections and in open fields and in wooded areas adjacent to target areas.

2nd. Tactical targets in the Rouen area attacked by four combat wings. Patterns observed as far north as Doudeville and as far south as Foret Beaumont, east of Bernay, and from the western point of Tont le Veque to the Foret la Londe, northwest of Elbeuf. Within this area, some 40 patterns of bursts are seen and it is probable that many others occurred but were not covered by pictures. On the whole the western part of the target was most severely hit.

Primary and secondary roads running to the Seine were cut in numerous places and other patterns were observed on river crossings and ferries with probably good results. In the vicinity of Brionne numerous patterns seen on rail facilities, and on a rail line leading to the tunnel between Brionne and St. Georges du Vievre.

3rd. Over half of the concentrations were on secondary roads. Most of the remainder were on primary highways and road junctions within the assigned target area. A few concentrations in railroad tracks and some in open fields.

+ It is evident that transport is denied the enemy to a good extent as the result of this attack, but it can by no means be assumed that access to the Seine Valley has been blocked.
